

WINTER EQUIPMENT LIST

Be prepared to be moving around in cold temperatures. For your safety and comfort, bring synthetic and or natural fiber clothing for insulation. Cotton is NOT recommended and down must be kept dry. Clothing should be able to layer without encumbering movement.

Students and clients can rent some equipment directly from Jackson Hole Mountain Guides - please inquire when booking your trip/class. There are many options for Ski and Snowboard equipment rentals in Jackson, as well as discounts available for students and clients.

Have gear questions? We're here to help! Contact us at 307.733.4979 or info@jhmg.com.
